PANGEA MLV Office of Attention for foreign citizen

Mancomunidad La Vega | May | 2020

The same place unites us

"Each person has his own origin, beliefs, culture, some of us are from here, others come from faraway places. But we all have something in common, the place where we live now."

How is the population of Mancomunidad La Vega?

At present, **more than 30% of the population of the Mancomunidad has an foreign origin.** The reasons why people decide to migrate and come to live in our municipalities are very diverse: some people come to enjoy our weather and culture, others come to approve their economic situation or improve their education, and finally some people are obligated to leave their countries to escape from human rights abuses... but all of them come with the hope to find a better life. This new citizen contributes to the enrichment and plurality of our community, what makes us a better, more supportive, and compassionate society.
